Hooker Falls

End project (STA 8+10)

Revegetate bare areas throughout project, including abandoned road and informal trails

Relocate Hooker Falls Road outside of riparian buffer  
Install fencing, signs, and dense vegetation to discourage off-trail hiking

Plant dense vegetation appropriate for gas line corridor;  
discourage human access

Hooker Falls parking area

Start project (STA 0+00)

Rebuild boulder toe and/or vane to protect streambank
