

Dear Forest Industry Member,

Please help NC Wood Products Extension, North Carolina Forest Service, and key industry leaders develop programs that best meet the issues you face today by completing this short survey.

The survey is designed to help gather your input on current issues impacting our forest products industry. The information you provide will inform in-person discussions the North Carolina Forest Markets Committee will hold in each of the 13 NC Forest Service Districts over the next year and a half. Each regional meeting will provide professional speakers and information aimed at the issues you identify in this survey.

If you've not already participated, please do so now. The survey takes about 10 minutes to complete.

Click this Safe Survey Link to begin answering a few simple questions: <https://arcg.is/19XPDv0>

Please forward this email and link on to your peers. This survey is a statewide effort. The more input we receive, the better the outcomes will be for our industry meetings to be held around the state.

Additional information and our first round of meeting information and registration can be found at <https://outreach.cnr.ncsu.edu/ncwood>. The registration links are

1-Nov 12 Montgomery County CC at Troy
