

# NCDFR & Interagency Natural Resource Station Network RAWS 1<sup>st</sup> Responders Mobilization Standards (RMS)

Prepared & adopted by the FEWG.

Item	Responsibility	ACTION DESCRIPTION	Readiness Plans				
			1	2	3	4	5, 6, & 7
		<b>NFDRS Fire Danger RAWS</b>					
1	District	Stations meet NFDRS Site Standards	✓	✓	✓	✓	✓
2	District	All days with available RAWS data for regular scheduled observation times will be archived in WIMS	✓	✓	✓	✓	✓
3	District	All annual maintenance completed prior to "WIMS Curing" and maintenance is documented in ASCADS Station information and narrative.	✓	✓	✓	✓	✓
4	District	Identify and troubleshoot data errors within 48 hours	✓	✓	✓	✓	✓
5	District	3 day response time to system failure in fire season - <b>NFDRS STANDARD</b>	✓	✓	See 6 & 7	See 6 & 7	See 6 & 7
6	District	"24 hour response time to identify, troubleshoot, and process Depot order"				✓	✓
7	District	24 hour response time to replace or make repairs after receiving sensor/parts			✓	✓	✓
1	Region	If District items (1-7) are not met at required level, then Regional FE Managers are to implement necessary measures to see that annual maintenance is performed and/or to correct any system failures immediately. This includes responding themselves.		✓	✓	✓	✓
2	Region	Regional Portables RAWS are available for prescribed or wildfire dispatch via Ops Room equipment ordering	✓	✓	✓	✓	✓
3	Region	Regional FE Managers are to submit <b>"quarterly missing data reports"</b> to State & District FE Managers	✓	✓	✓	✓	✓
4	Region	Regional FE Managers are responsible for the completion of pre-season readiness inspections during District Inspections. Inspections to be forwarded to State FE Manager.	✓	✓	✓	✓	✓
1	State	State FE Manager is to take immediate action if it is known that District and Regional Items are not met at required levels	✓	✓	✓	✓	✓
